

CORPORATE QUALITY ASSURANCE AND QUALITY CONTROL POLICY

In line with the terms of its policy statement, it is the policy of **BETHEL ENGINEERING SERVICES LIMITED** that:

- **it systematically manages its quality issues to conform to local and international standards and to continuously improve upon it.**
- **a corporate quality management system is properly maintained and documented.**
- **a safe, economical, and functional project quality plan be adopted for each project in full compliance with ISO 9000 (2000).**
- **its personnel are highly skilled in their field of activity and undergo periodic training.**
- **the overall co-ordination, monitoring and auditing of all quality related matters shall be the responsibility of the QA/QC Manager, who shall incidentally report to the chief executive officer for proper oversight and commitment.**
